## Boozter™

Comfortable eating for males  
only

The wide grill openings offer cockerels with fully-grown combs easy and comfortable access to the feed.

For optimal system performance, keep 10 cockerels per pan for the whole flock, especially after culling and spiking.

<b>Animal info</b>			
Number of birds/pan		10	
Average age at removal (weeks)		65	
Average weight at removal (kg)		4,5	
Max. daily feed intake (g/bird)		130 - 150	
<b>Technical info</b>			
Pan	Material	polypropylene (nylon top support)	
	Dimensions	488 x 325 mm	
	Average pan contents	350 g	
	Quantity per feed level	approx.. 16 g	
Transport	Material tubes	galvanized steel	
	Outside diameter tube	44,5 mm	
	Feed amount	600 g/m tube	
	Max. pellet diameter	4 mm	
	Power unit	0,55 kW - 3/4 HP	
		3 phase 50 Hz	
		560 rpm	
	Feed transport capacity	700 kg/h	
	Max. length of the line	1 pan/tube	150 m
		2 pans/tube	150 m
		3 pans/tube	130 m
		4 pans/tube	100 m
Suspension points		max. every 3 m	
Average height		3,25 m	
Installation time (including assembly)		3 skilled people: 1 line (100 m) per day
